

Happy New Moon Day to all who worship Yahuah Alahim and Yahusha haMashiach on their Kadosh (set apart) Lunar New Moons and Sabbaths!

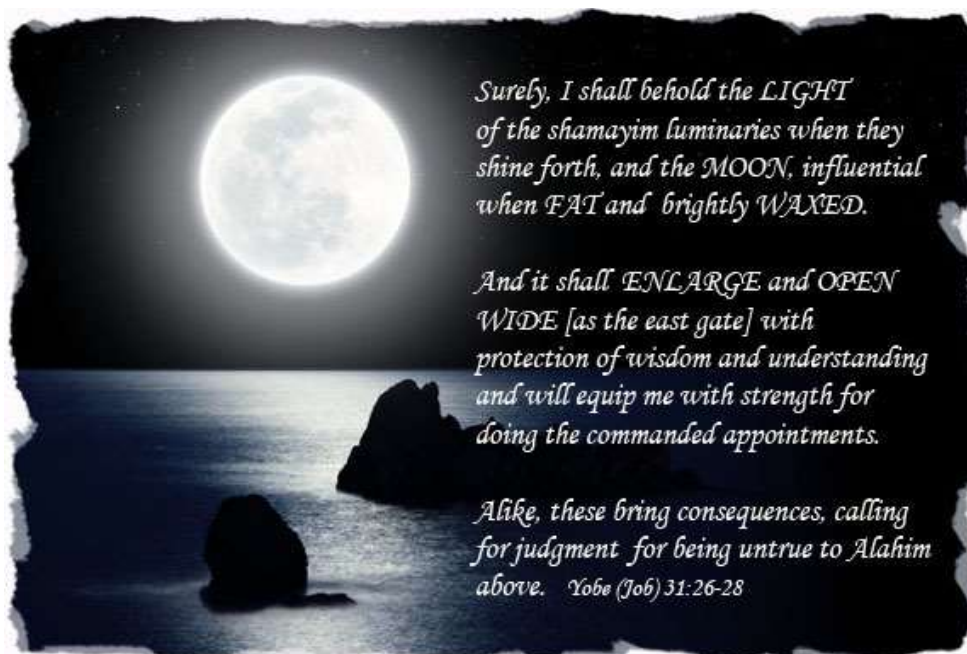

<https://www.youtube.com/watch?v=FUb6QjzvRXU>

Today is Day One of the Creator's authentic *Fourth Lunar Month*, although it coincides with the Roman Gregorian solar calendar's *Mon. 07-22-2024*.

His years are measured from spring to spring. Each month, it is awe-inspiring to watch the full moon rise in the East and make its way along the east-west time continuum under the Creator's tireless direction. Then, see with your own eyes that moment when the sun's first rays shine forth to greet the descending full moon before it sets in the west. They greet each other with a nod and agreement that this moment, while visible from opposite coordinates together, marks the start of the new lunar month. Honoring His New Moons as declared from His sacred Torah Law shows Him who desires to enter through the pearly gates of His Eternal Kingdom government. I hope to see you there! HalleluYah!

“Blessed are those who hear the joyful call to worship, for they will walk in the light of your presence, YAHUAH. They rejoice all day long in your wonderful reputation. They exult in your righteousness.”
Psalms 89:15-16

*Surely, I shall behold the LIGHT
of the shamayim luminaries when they
shine forth, and the MOON, influential
when FAT and brightly WAXED.*

*And it shall ENLARGE and OPEN
WIDE [as the east gate] with
protection of wisdom and understanding
and will equip me with strength for
doing the commanded appointments.*

*Alike, these bring consequences, calling
for judgment for being untrue to Alahim
above. Yobe (Job) 31:26-28*

A Song of Eternal Light

Let there be lights within the heavens' span,
To separate the day from the dark of night,
For signs and seasons, days and years to plan,
From New Moon dates, our Sabbaths take their flight.

It shall be established forever, like the moon,
A faithful witness in the sky's embrace,
A testament to time's unending tune,
In silver glow, Yah's promises we trace.

Yet, “When will the New Moon pass?” they cry,
“To trade our corn, to sell our wheat,”

But in their hearts deceitful shadows fly,
They falsify, and with weighted measures cheat.

He ordained the moon for mo'eds, set apart,
The sun's bright rays endue it with their grace,
From east to west, it marks its sacred start,
The lunar dates, His calendar to trace.

Thus says YAHUAH, the east gate shall stand,
Shut six working days, but opened for His rests,
On New Moons and Sabbaths by His command,
The priests bring offerings to be blessed.

In that glorious land where sin shall be no more,
All flesh shall come to worship at His feet,
In peace and safety, there will be no war,
The moon's cycle set, from full to full so sweet.

Teach us to number our days with wisdom's heart,
That we may find a truth where knowledge grows,
In every phase, the moon and stars impart,
A rhythm through which Yah's understanding flows.

For my beloved is not at home, but why,
He journeys long, yet promised to return,
A bag of gold for you and me to buy,
On Full Moon Day He comes, our hearts do yearn.

In heaven's dance, the moon and stars shall be,
The brilliant beacon as His faithful guide,
In sacred light, our souls are made to see,
Yah's eternal love that flows when we abide.

Song: Yah the Uncreated One ~ Keith and Kristyn Getty

<https://www.youtube.com/watch?v=rswH9CSyWHk>

(As I sing along, it has become my habit to change out all the replacement names for Yah, Yahuah, Yahusha, or Alahim as the song requires.)

I asked Yahusha to completely envelop you in His peace and wrap your mind in His steadfast truth. He will give you rest even in you restlessness.

Barak hashem YAHUSHA haMashiach! (*Bless the name of YAHUSHA the Messiah!*)

Not only do the Scriptures never hint that the New Moon Day, lunar Sabbath, and lunar appointed Feast Days were to be abolished or changed, but to the contrary, we have the clear and direct statement of YAHUSHA haMashiach that until heaven and earth pass away, nothing in the Torah (O.T.) will be done away with. *Matthew 5*

CALENDAR COMPARISON CHART			
Scripture's Time Units	The Creator's Calendar Standard	Modern Roman Gregorian	Rabbinical Pharisee Jewish
19 Year Lunar Embolismic Cycle <i>(Scripture's evidence is the sum of the verses below, as they only work on a 19-year lunar cycle.)</i>	Every 19 years, the <i>astro-lunar</i> cycle synchronizes naturally to the solar year. As regular lunar years are shorter than the solar years by 10-11 days, two or three regular years in a row will be approximately 21 days short. Yet the moon automatically provides the 13 th month at the correct time to restore harmony. This phenomenon exists perpetually and without human aid.	Julius Caesar removed the use of the lunar phases for time-measuring as early as 45 B.C. Later, Constantine utilized the 19-year cycle of 13-month years of the hated Jews only to ensure their Easter Sunday would never occur on the Jewish Passover. So Easter's lunar custom as tied to the full moon continues to this day. It is located on the first Sunday following the first full moon after the Vernal Equinox.	While the modern Jews keep 12-13 month lunar years that revolve on a 19-year cycle and start in spring & fall, theirs is now a mathematically calculated system derived from ancient Babylon. It now utilizes, in theory, the first dark or crescent moon nearest to the Vernal Equinox in spring to locate all Feast Days. They are out of sync with Exodus 12:1-2 for years by 14 days & 180 degrees on the Zodiac.
New Moon Lunar Phase <i>Genesis 1:16 Exodus 12:1-4 Psalms 81:3 Psalms 89:37 Proverbs 4:18 Isaiah 66:22-23 Ezekiel 46:1-3 Amos 8:9-11 Luke 23:44-45 Ephesians 5:13 James 1:17 Rev. 12:1</i>	Genesis depicts the full moon announces the start of each month by ruling the NIGHT together with the stars, on the east-west time continuum, when the sun is NOT present. The New Moon Day begins the following sunrise. Luke indicates that our Messiah's death on Passover, the 14 th of Abib, was a dark conj. lunar phase that produced the lengthy solar eclipse. So 14 days earlier, the New Moon was FULL.	Initially, the Romans utilized a luni-solar calendar as kept by all nations of the ancient world. But all luni-solar calendars are not the same. They start and end at different points. Since the 4 th century A.D., only Easter of the Roman Calendar continues to utilize the 12 and 13 lunar month years, the naturally occurring phenomenon inherent in the original lunar-based calendar of Scripture. The existence of Easter remains a sign that the original calendar of Scripture was lunar.	The Karaite Jews honor the crescent as New Moon, while the Rabbinical Pharisees honor the dark conjunction as the New Moon. Both lunar phases are in close proximity to the sun by day and are unable to meet the Genesis 1 criteria of a full moon ruling with the stars all night on the east-west time continuum, <u>opposite the sun</u> . Nor can it produce the solar eclipse that occurred on the day of Messiah's death. (Luke & Amos)

1. **Sabbath and New Moon** (Rosh Hodesh), both periodically recurring in the course of the year. The New Moon is still, and the Sabbath originally was, dependent upon the lunar cycle. Both date back to the nomadic period of Israel. Originally the New Moon was celebrated in the same way as the Sabbath; gradually it became less important, while the Sabbath became more and more a day of religion and humanity, of religious meditation and instruction, of peace and delight of the soul, and produced powerful and beneficent effects outside of Judaism.
