

Happy New Moon Day to all who worship Yahuah Alahim and Yahusha haMashiach on their Kadosh (set apart) Lunar New Moons and Sabbaths!

<https://www.youtube.com/watch?v=FUb6QjzvRXU>

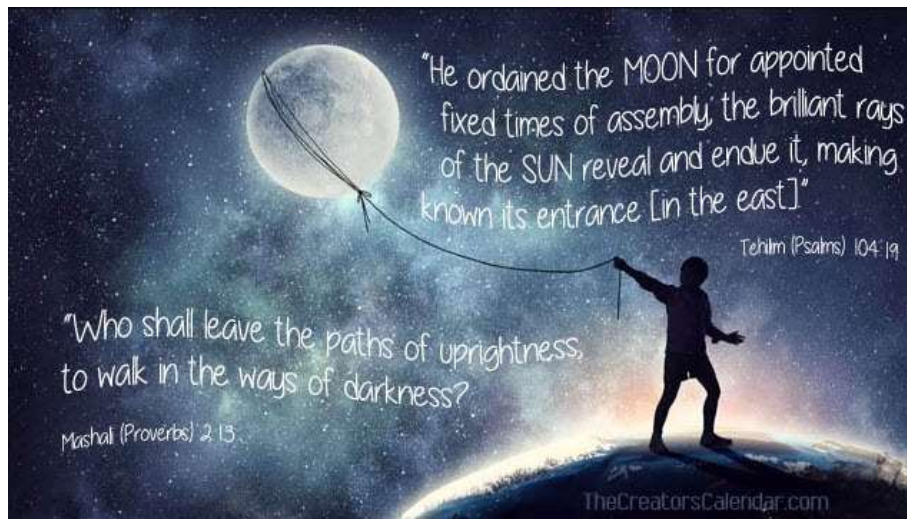

Today is **Day One** of the Creator's authentic **Fifth Lunar Month**, although it coincides with the Roman Gregorian solar calendar **Tues., 08-20-2024**.

His years are measured from spring to spring. Each month, it is awe-inspiring to watch the full moon rise in the East and make its way along the east-west time continuum under the Creator's tireless direction. Then, see with your own eyes that moment when the sun's first rays shine forth to greet the descending full moon before it sets in the west. They greet each other with a nod and agreement that this moment, while visible from opposite coordinates together, marks the start of the new lunar month. Honoring His New Moons as declared from His sacred Torah Law

shows Him who desires to enter through the pearly gates of His Eternal Kingdom government. I hope to see you there! HalleluYah!

“Blessed are those who hear the joyful call to worship, for they will walk in the light of your presence, YAHUAH. They rejoice all day long in your wonderful reputation. They exult in your righteousness.”
Psalms 89:15-16

Established Forever Like the Moon

The full moon ascends, a silver glow,
In the night's embrace, a sacred show.
Established in the heavens high,
YAH's east-west witness in the sky.

The Sabbath, marked by lunar phase,
A rhythm from the ancient days,
Not by the man-made, solar count,
But by the moon, as paramount.

“Established forever,” the Psalmist plays,
Like the moon, syncing holy days,
A timepiece in the starry dome,
A guide unto YAH's eternal throne.

The seventh day, His Sabbath rest,
Found in the cycle, divinely blessed,
Not in the week of human plan,
But in the light, where truth began.

The full moon calls, the month anew,
A sign, a beacon, clear and true,
The Sabbath starts its sacred course,
From its Maker, its only source.

“But all that’s hidden shall be revealed,”
In light, where truth is unconcealed,
Ephesians speaks of light’s embrace,
Revealing all with holy grace.

Sun, moon, and stars, the cosmic dance,
Not born of fate, nor of mere chance,
But woven in the fabric tight,
Of YAH’s design, both day and night.

The Sabbath, not by Rome’s decree,
But by the moon, YAH’s time shall be,
From Egypt, Babylon, and Rome’s strong chain,
The faithful leave, His truth to gain.

Philo spoke of New Moon’s day,
The start of which all shall obey,
A festival, a day of light,
Following after full moon’s night.

The ancients knew the lunar way,
The Sabbath’s found in moon’s array,
Four weeks that cycle, pure and bright,
From full to full moon in our sight.

The Hebrew calendar once did bind,
Sun, moon, and stars, all intertwined,
But now it’s bent to man’s design,
Forsaking what was once divine.

But in the night, the truth remains,
In moonlit paths and starry lanes,
A witness to the time of old,
When Sabbaths were by moon foretold.

No earthly power can alter this,
The lunar cycle's timeless kiss,
A Sabbath, pure, untouched by man,
Ordained by YAH when time began.

Rome's Nicaean Council's sway,
Did lead the world another way,
Yet those who seek the ancient path,
Will find YAH's Sabbath, by moon's math.

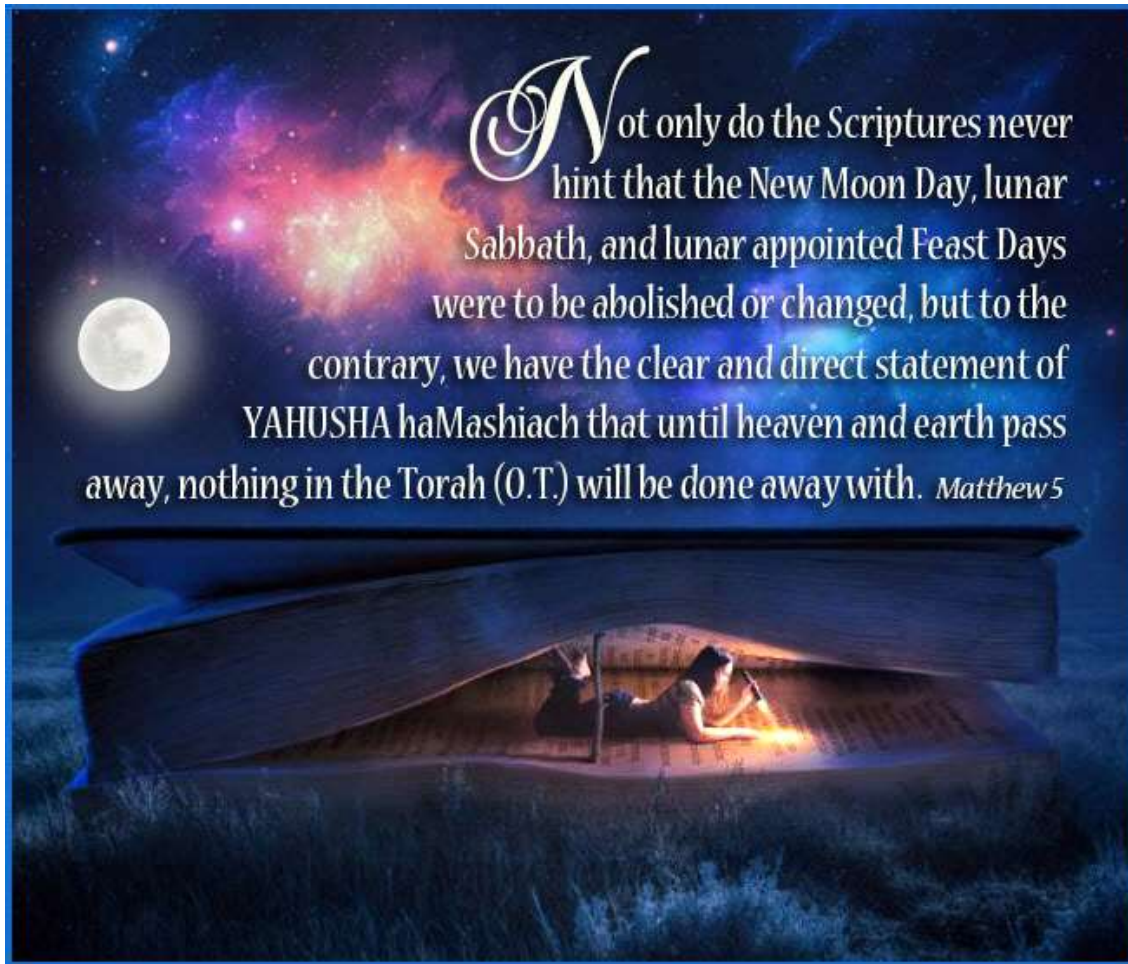

The Pharisees and Talmud's lore,
Have changed the ways that went before,
But in the heavens, YAH's decree,
Remains for all eternity.

From the full moon's eternal phase,
The Sabbath shines forth in endless days,
A testament, a light so true,
Established in the sky's deep blue.

So let us follow where it leads,
The moon, the stars, YAH's ancient creeds,
For in their light, we find the way,
To honor YAH, as potter's clay.

In its absence, no greater loss,
It's forever established, like a boss,
A witness in the sky above,
A symbol of YAH's endless love.

*Psalms 104:19; Genesis 1:14; Leviticus 23; Isaiah 66:23;
Ezekiel 46:1-3; Psalms 7:20.*

Not only do the Scriptures never hint that the New Moon Day, lunar Sabbath, and lunar appointed Feast Days were to be abolished or changed, but to the contrary, we have the clear and direct statement of YAHUSHA haMashiach that until heaven and earth pass away, nothing in the Torah (O.T.) will be done away with. *Matthew 5*

I am praying you'll be reminded that the same Alahim who created the sun, moon, and stars is the same Alahim who goes before you. *"Is anything too hard for YAHUAH?"* Genesis 18:14

Barak hashem YAHUSHA haMashiach! *(Bless the name of YAHUSHA the Messiah!)*

New Moon Day

The day Morning and Evening Converge and become balanced in the heavens. The only day the sun is seen in the east rising and in the west the Bright Full Moon before it's setting, their lights upon the earth as in the beginning where it says in Genesis 1:15 17

And let them be for lights in the firmament of the heaven to give light upon the earth: and it was so.

And to rule over the day and over the night, and to divide the light from the darkness: and Yahuah saw that it was good.

Our Head Yahuah gave to us when He gave us our New Beginning before leaving Egypt when He said in Exodus 12:2

This month shall be unto you the beginning of months: it shall be the first month of the year to you.

It is this balance according to Yahuah, His Pattern written in the heavens, spoken about in Scripture, Yahuah uniting His Children each month into His Numbering of days His Order we are learning to number our days, coming into His Feasts and Festivals and Sabbaths His Way, not ours!

HOLIDAYS (*yamim tobim*, singular *yom tob*, corrupted in popular speech to Yontovim and Yontev). The Jewish holidays may be grouped under the following heads:

1. Sabbath and New Moon (Rosh Hodesh), both periodically recurring in the course of the year. The New Moon is still, and the Sabbath originally was, dependent upon the lunar cycle. Both date back to the nomadic period of Israel. Originally the New Moon was celebrated in the same way as the Sabbath; gradually it became less important, while the Sabbath became more and more a day of religion and humanity, of religious meditation and instruction, of peace and delight of the soul, and produced powerful and beneficent effects outside of Judaism.

<p>Only “one” lunar phase meets all the principles required, and only one is disqualified on all points.</p> <p>The quarter lunar phases give excellent approximations for the four weekly Sabbaths each lunar month. The reason they cannot be perfect representations for each Sabbath consistently is two fold: 1) Because neither 29 nor 30 days can be equally divided by four weeks or seven days no matter which lunar phase one believes to be the New Moon. 2) For the sheer fact that the New Moon day exists in addition to the four cycling weeks.</p> <p>It appears the “Creator of lights” wanted mankind to count our monthly dates from New Moon day, and our weeks beginning the day after. So, while Philo’s views regarding the moon’s quarter phases are close, they simply cannot be substantiated 100% each month, and as a result are secondary to the actual count.</p> <p>The lunar phases above are representative of the Northern Hemisphere.
